The Best from latest Mobile Technologies

Featuring the Intel® Pentium® M processor from 1.6GHz with 2MB cache memory, or the Intel® Celeron® M processor, the NEC VERSA S940 delivers advanced computer power to mobile users. High-speed memory (DDR333) and Hard Drive (5400 rpm) contribute in enhancing the overall performance.

Boosting Mobility and Productivity

The NEC VERSA S940 has been designed to offer increased mobility : weighing only 2kg, and with up to 4 hours of working autonomy, it will connect to any Wireless access points and public hotspots thanks to the embedded wireless Intel card 802.11 b/g.

Office On The Go

While extremely mobile, the NEC VERSA S940 offers usage comfort that can be found on a full-size notebook : large viewing display with the 13" wide LCD panel, enhanced ease of use with regular keyboard size, and optional dedicated port replicator for extended and simplified office connectivity.
